5. Allianz Foundations

Composite Logo Logic

Allianz is enaged in many projects to create longlasting environmental and societal impact and has established a number of foundations that work together to help local communities around the globe.

Allianz foundations are own legal entities and follow the descriptor logic. The Allianz logo and the name of the foundation are detached from each other on the same level. The name of the foundation is set in Allianz Neo semibold and does not include a picture mark.

5. Allianz Foundations

· Allianz Neo semibold | traking +20 | mixed writing
· Cap-height = bottom wordmark to top of crossbar A
· Line spacing 100%
· Allianz blue or white
· Placement according to media, layout and format (see following pages)
· Minimum distance to Allianz Logo is 1 eagle
· Allianz blue or White

5. Allianz Foundations Positioning & Alignment Placement on websites

- On AEM headers the foundation is set left-aligned next to the Allianz logo divided with a centered divider line for desktop and tablet view
- The foundation is an independent and editable text module as part of the header. It´s not connected with the Allianz Logo!
